Claim Rejections - 35 USC § 102

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

2. Claim 17 are rejected under 35 U.S.C. 102(b) as being anticipated by Peter (US 5,767,490). Peter discloses, figure 3, a method and apparatus for welding together two metal sheets comprising the steps of pressing together opposing surfaces of the bond metal sheet (4) and the base metal sheet (5) and inductively heating the pressed bond metal and base metal sheets (4, 5) to a temperature sufficient to bond the bond metal sheet (4) directly to the base metal sheet (col. 3, lines 26-46).

3. Claim 17 are rejected under 35 U.S.C. 102(b) as being anticipated by Rudd et al (US 3,860,778). Rudd discloses, figures 14-15 and 38, a melt welding by high frequency electrical current comprising the steps of pressing together opposing surfaces (40-41 of figures 14-15, 10-11 of figure 38) of the bond metal sheet (10) and the base metal sheet (11) and inductively heating the pressed bond metal and base metal sheets (10-11) to a temperature sufficient to bond the bond metal sheet directly to the base metal sheet (col. 11, lines 25-37 and col. 16, lines 46-60).

Claim Rejections - 35 USC § 103

4. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and

Art Unit: 3742

the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

5. Claim 19 is rejected under 35 U.S.C. 103(a) as being unpatentable over Rudd et al (US 3,860,778) in view of Bennett et al (US 4,413,406). Rudd discloses substantially all features of the claimed invention except the step of cutting the one or more bonded products from the bonded base-bond sheet. Bennett discloses the step of cutting the one or more bonded products from the bonded base-bond sheet (col. 4, lines 3-13. It would have been obvious to one having ordinary skill in the art at the time the invention was made to utilize in Rudd the step of cutting the one or more bonded products from the bonded base-bond sheet as taught by Bennett in order to have a predetermined length suitable for specific use.

6. Claims 20-29 are allowed.

Response to Amendment

7. Applicant's arguments with respect to claims 17, 19-29 have been considered but are moot in view of the new ground(s) of rejection.

8. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the

shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.

9. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Quang T. Van whose telephone number is 571-272-4789. The examiner can normally be reached on 8:00Am 7:00Pm M-Th.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Robin Evans can be reached on 571-272-4777. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
